

Foreword

This report was prepared by Hagler Bailly, Inc. (formerly, Apogee Research, Inc.) for the Federal Highway Administration under contract number DTFH61-95-C-00061 by Michael Grant, Kelly See, and Donna Downing. For additional information please contact Kirk D. Fauver or Cecelia Ho, Federal Highway Administration, Office of Environment and Planning (HEP-40) at 202-366-2079 or 202-366-9862. Copies of this report may also be obtained through the FHWA Office of Environment and Planning's new web site at <http://www.fhwa.dot.gov/environment/>

Notice

This report provides a preliminary discussion of the relationship between transportation and global climate change. The views and analytical conclusions are those of the contractor, and do not necessarily represent those of the United States government, or any portion thereof.

The US Department of Transportation is publishing this report to disseminate its information and to promote further dialogue on these topics. Dissemination of the report by the Department, however, does not constitute an endorsement, expressed or implied, of the conclusions reached by the contractor. Moreover, mention of trade names or commercial products are not intended to constitute endorsement or recommendation for use.
